THERAPY DESCRIPTIONS

A gift with which I was born – to be able to see the aura and feel the pain and ailments in others - established a clear road for me to walk through.

BIOENERGY :

This therapy is directed toward the harmonization and cleansing of the basic bodies that conform us = ENERGY and MATTER. The first need is to detect blocked points registered by the physical body and originated at EMOTIONAL level. These inharmonic activities impede normal flow of vital energy in such a manner that can put us in a state of illness.

Bioenergy therapy acts from the physical plane towards the emotional plane by correcting the energetic flow, the bone structure and the atomic weight. The **Light Field** or **Aura** that surrounds us is altered by the energetic, emotional and physical impact we suffer throughout our lives.

FLOWER THERAPY :

This flower essence Therapy acts within us through vibrations in our energetic field. It is directed towards correcting negative emotional states, such as anxiety, fears, depression and other emotional states, originated in mental structures or daily life experience. These sufferings can consciously or unconsciously reach our physical body as an "Illness".

REIKI :

Self-therapy healing through hand imposition, Dr. Mikao Usui.
